# MATHEESHA WISHMAL LIYANAGE

## HELP DESK ANALYST | 1ST LINE IT SUPPORT | WINDOWS & MICROSOFT 365

London, UK | matheesha528@gmail.com | linkedin.com/in/matheesha-wishmal-4859822b1 | MatheeshaWishmal.github.io

## PROFESSIONAL PROFILE

Computing Systems graduate with hands-on first-line IT support experience across education and healthcare. Experienced supporting Windows PCs, printers, software, user accounts, access and network/Wi-Fi issues; gathering diagnostic information; resolving routine incidents; and escalating unresolved faults with clear context. Strong foundations in Windows 10/11, Microsoft 365, TCP/IP, DNS/DHCP, Jira, SQL and application troubleshooting, supported by practical networking, software and Azure projects. Combines structured problem solving with strong customer communication from technical support and UK frontline service work.

## KEY SKILLS

| | |
|---|---|
| **Help desk**<br>First-line troubleshooting, incident triage, user support, escalation, documentation, PCs/laptops, printers and peripherals | **Microsoft & identity**<br>Windows 10/11, Microsoft 365/Office, Teams, SharePoint, Active Directory/Entra foundations, Intune and Exchange foundations |
| **Networking & tools**<br>TCP/IP, DNS/DHCP, Wi-Fi/LAN, Linux, Jira, Git/GitHub, VS Code, Wireshark | **Development & cloud**<br>Python, Java, C++, JavaScript/TypeScript, SQL, Django, Flask, Node/Express, Angular, Azure Functions, Blob Storage, Cosmos DB |

## RELEVANT EXPERIENCE

### Help Desk Assistant

Sakya Institute, Kiribathgoda, Sri Lanka | Dec 2022 - Nov 2023

- Provided first-contact support for staff using PCs, printers, Microsoft applications, login/basic access and payment-related systems.
- Captured issue details, resolved routine faults and escalated complex incidents with clear troubleshooting context.
- Explained technical steps clearly to non-technical users while maintaining accurate operational records.

### IT Department Intern

Nawaloka Hospital, Colombo, Sri Lanka | Mar 2022 - Dec 2022

- Supported Windows PCs, printers, hospital software, user accounts, hardware setup and network/Wi-Fi connectivity.
- Diagnosed common hardware, software and connectivity faults and escalated unresolved issues appropriately.
- Worked carefully in a confidentiality-sensitive healthcare environment while supporting multiple departments.

### Cafe Assistant

Kahfi, London, UK | Jan 2024 - Present

- Deliver calm, accurate customer service in a high-volume environment while resolving day-to-day issues and balancing priorities.

### Seasonal Associate

TK Maxx & Homesense, London, UK | Oct 2024 - Dec 2024

- Supported customers, tills, deliveries and stock operations across departments, strengthening teamwork and service reliability.

## SELECTED TECHNICAL PROJECTS

**AetherLens** - Built a serverless Azure multimedia platform using Functions, Blob Storage, Cosmos DB, Azure AI Vision, Application Insights and GitHub Actions.

**CareNexus API** - Developed authenticated healthcare-data APIs using Flask, MongoDB, JWT/RBAC, search, pagination and GeoJSON.

**TaskBidder** - Built a Django marketplace with accounts, task bidding, real-time WebSocket negotiation, notifications and simulated escrow workflows.

**TinyML Predictive Maintenance** - Built a vibration-monitoring prototype using accelerometer data and on-device machine-learning inference to identify abnormal equipment behaviour.

**Wireshark Security Analysis** - Analysed TCP/UDP traffic, handshakes and DoS/DDoS behaviour using packet captures.

## EDUCATION & TRAINING

**BSc (Hons) Computing Systems** | Ulster University, London | Studies completed 2026
Dean's List Award 2025. Relevant study: cloud computing, networking, cybersecurity, databases, software development and systems support.

**Cisco training:** Computer Hardware Basics | IT Customer Support Basics
